Origin of our corporate name, "YA" "MA" "WA"

Mr. Jokichi Watanabe, the founder of the company, decided to use the shop name "YA" "MA" "WA", which he had been using in his family business instead of using his personal family name. He gave his company the name "YA" "MA" "WA" by adapting these lucky words and using the connotation "YAMAWA" from the ancient Japanese characters, MANYOGANA. The meaning of YAMAWA is "Greater prosperity, More united". In this phrases, he put his wish "as the company becomes prosperous, the harmony among employees becomes more precious".

90 years' experience in threading application

YAMAWA was founded in 1923. For more than 90 years, YAMAWA has been improving the quality of Taps and Dies in order to meet the customers needs. Our chief goal is to provide our customers with "Reliable Screw Threads".

90% of all the grinding machines are built in-house.

More than 90 % of the grinding machines used in manufacturing at the YAMAWA factories are built in-house by YAMAWA. This enables YAMAWA to always maintain the highest level of accuracy with these in-house grinding machines and continue to supply our customers worldwide with the highest quality of taps. These machines lead to consistency of the taps performance.

100% quality inspection

Taps produce thousands of internal screw threads. One defective tap could produce thousands of defective parts. In order to prevent this from happening, YAMAWA conducts 100% final inspection of each single tap as well as intermediate inspection after each grinding process.

YAMAWA's motto is "Reliable Screw Threads". We enrich the manufacturing industry by producing the highest quality taps. In addition to taps, we also manufacture threading dies, drills, countersinks, combined drill countersinks and a broad range of other centering type cutting tools. Since YAMAWA's founding in 1923, we have been putting a continuous effort into quality improvements and technical progress as a general cutting tool manufacturer for over 90 years.

YMW TAPS USA

The sole agent of
YAMAWA/YMW USA products
